4. Introduction

This document provides the files needed to support testing of the XHTML MP Version 1.3 that is a specification belonging to Browsing Enabler Release versions 2.4

Since the test assertions were donated in 3 different phases and by 3 different main contributors, they were kept separated in 3 test suites.

These test assertions test the XHTML MP 1.3. They SHOUL NOT be run in sequence but MUST be run as indicated on [ETS_XHTMLMP13]

4.1   Description of Directory Hierarchy

**Figure 1: Directory Hierarchy for the XHTML MP 1.3 Enabler Test Files**

4.2   Description of File Distribution for Testing

The test files need to be put on a HTTP server with ASP and ASPX support. Some of the test files have the path hardcoded to be on:

> http://testfest.openmobilealliance.org/...

After that came the name of the directories as on this package, namely: XHTML_Suite_1, XHTML_Suite_2 and XHTML_Suite_3

5. Script Files

This section describes the script files included in the package.

5.1   Script Files for XHTML MP 1.3

The script files in this section are associated to the tests driven from the HTTP server.

5.1.1   Script Group – Test Suite 1

The script files in the subsection cover several areas of the specifications and are referred on [ETS_XHTMLMP12].
