

Enabler Release Definition for  
vObject minimum interoperability profile  
Candidate Version 1.0 – 18 Jan 2005

---

**Open Mobile Alliance**  
OMA-ERELED\_vObjectOMAPProfile-V1\_0-20050118-C

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

# 1. Scope

The scope of this document is limited to the Enabler Release Definition of vObject minimum interoperability profile V1.0 according to OMA Release process and the Enabler Release specification baseline listed in section 5.

The vObject enabler defines vObject(vCard, vCalendar, vBookmark) minimum interoperability profile and implementation guideline to ensure consistent and unambiguous interpretation of the relevant base specifications vCard2.1, vCalendar1.0 and vBookmark1.0.

## 3. Terminology and Conventions

### 3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope” and “Introduction”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 8 and 9 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [IOPPROC].

### 3.2 Definitions

<b>Enabler Release</b>	Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.
<b>Minimum Functionality Description</b>	Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.
<b>vObject Composer</b>	An application to compose vObject data
<b>vObject Parser</b>	An application to parse vObject data

### 3.3 Abbreviations

<b>ERDEF</b>	Enabler Requirement Definition
<b>ERELD</b>	Enabler Release Definition
<b>OMA</b>	Open Mobile Alliance
<b>JPEG</b>	Joint Photographic Expert Group
<b>UTC</b>	Universal Time Coordinated

## 4. Introduction

This document outlines the Enabler Release Definition for vObject minimum interoperability profile V1.0 [vObjProfile] and the respective conformance requirements for clients and servers implementing claiming compliance to it as defined by Open Mobile Alliance across the specification baseline.

vObject minimum interoperability profile V1.0 defines a set of vObject (vCard, vCalendar and vBookmark) conformance, constrains the implementation choices from original vCard 2.1 [vCard2.1], vCalendar 1.0 [vCal1.0] and vBookmark 1.0 [vBook1.0] specifications and clarifies the ambiguities of the syntax contained in those specifications.

vObject minimum interoperability profile V.0 includes minimum interoperability profiles of vCard 2.1, vCalendar 1.0 and vBookmark1.0.

## 5. Enabler Release Specification Baseline

This section is normative.

The Enabler comprises the following specifications:

“vObject minimum interoperability profile V1.0”[vObjProfile]

“vObject OMA Minimum Interoperability Profile Requirements V1.0”[vObjProfile\_RD]

## 6. Minimum Functionality Description for vObject minimum interoperability profile V1.0

The vObject composer composes mandatory supported properties defined in vObject minimum interoperability profile V1.0 [vObjProfile].

The vObject parser parses and registers mandatory supported properties defined in vObject minimum interoperability profile V1.0 [vObjProfile].

## 7. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid ScrItem according to [IOPPROC].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Status:** Entry in this column **MUST** accurately reflect the architectural status of the **Item** in question.
- M means the **Item** is mandatory for the class
  - O means the **Item** is optional for the class
  - NA means the **Item** is not applicable for the class
- Requirement:** Expression in the column **MUST** be a valid TerminalExpression according to [IOPPROC] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

## 8. ERDEF for vObject minimum interoperability profile V1.0- Client Requirements

This section is normative.

Item	Feature / Application	Status	Requirement
OMA-ERDEF-vObjProf-C-001	vObject Client support	M	vObjProfile -Gen-C-001

**Table 1 ERDEF for vObject minimum interoperability profile V1.0 Client-side Requirements**

## 9. ERDEF for vObject minimum interoperability profile V1.0 - Server Requirements

This section is normative.

Item	Feature / Application	Status	Requirement
OMA-ERDEF-vObjProf-S-001	vObject Server support	M	vObjProfile -Gen-C-001

**Table 2 ERDEF for vObject minimum interoperability profile V1.0 Server-side Requirements**

## Appendix A. Change History (Informative)

### A.1 Approved Version History

Reference	Date	Description
n/a	n/a	No prior version

### A.2 Draft/Candidate Version 1.0 History

Document Identifier	Date	Sections	Description
Draft Versions	05 Nov 2004	All	Initial version
OMA-ERELED_vObjectOMAPProfile-V1_0	14 Dec 2004	2.2, 5, 6, 8, 9	According to consistency review comments received from REL
Candidate Version	18 Jan 2005	n/a	Status changed to Candidate by TP
OMA-ERELED_vObject-V1_0			TP ref # OMA-TP-2005-0014-vObject-V1_0-for-Candidate-approval
