

Enabler Release Definition for Charging Enabler

Approved Version 1.1 – 09 Oct 2012

Open Mobile Alliance
OMA-ERELED-Charging-V1_1-20121009-A

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

© 2012 Open Mobile Alliance Ltd. All Rights Reserved.

Used with the permission of the Open Mobile Alliance Ltd. under the terms set forth above.

3. Terminology and Conventions

3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope” and “Introduction”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 8 and 9 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [IOPPROC].

3.2 Definitions

Enabler Release Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.

Minimum Functionality Description Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.

For definitions of terms not found here, please refer to [OMADICT].

3.3 Abbreviations

AD	Architecture Document
API	Application Programming Interface
ERDEF	Enabler Requirement Definition
ERELD	Enabler Release Definition
HTTP	HyperText Transfer Protocol
OMA	Open Mobile Alliance™
RD	Requirements Document
REST	REpresentational State Transfer

4. Release Version Overview

This document outlines the Enabler Release Definition for the Charging Enabler and the respective conformance requirements for clients and servers claiming compliance to it as defined by Open Mobile Alliance across the specification baseline.

The motivation for the creation of a Charging Enabler was established in the Work Item outlining the effort. The ability to charge for service usage is fundamental when creating services using OMA enablers.

4.1 Version 1.0 Functionality

The first version of the Enabler Release specifies the OMA Charging interfaces and a protocol binding to 3GPP Diameter Applications [TS32.299] based on IETF Diameter Accounting application [RFC3588] and IETF Diameter Credit-Control application [RFC4006].

4.2 Version 1.1 Functionality

The new version of the Enabler Release specifies how the OMA Charging interfaces MAY be exposed as a Payment API compliant with either the SOAP protocol binding of Parlay X Web Services Payment API as specified in [TS29.199-6] or with the HTTP protocol binding of RESTful Network API for Payment [REST NetAPI Payment].

The current version also includes technical refinements and changes to the maintenance of OMA Charging Data Elements [CHRG_DDS].

5. Document Listing for Charging V 1.1 Enabler

This section is normative.

Doc Ref	Permanent Document Reference	Description
Requirement Document		
[CHRG_RD]	OMA-RD-Charging-V1_0-20070904-A	Requirement Document for Charging Enabler
Architecture Document		
[CHRG_AD]	OMA-AD-Charging-V1_1-20121009-A	Architecture Document for Charging Enabler
Technical Specifications		
[CHRG_OFFLINE]	OMA-TS-Charging_Offline-V1_1-20121009-A	Specification that defines the protocol for Charging that provides control interface between the Charging Enabler User and Charging Infrastructure in Offline scenarios
[CHRG_ONLINE]	OMA-TS-Charging_Online-V1_1-20121009-A	Specification that defines the protocol for Charging that provides control interface between the Charging Enabler User and Charging Infrastructure in Online scenarios
[CHRG_3GPP_3GPP2]	OMA-TS-Charging_3GPP_3GPP2-V1_0-20070904-A	Specification that describes how the OMA Charging enabler specifications shall be used when interfacing to a 3GPP/2 type Charging infrastructure
White Paper		
[CHRG_DEPLOYMENT_WP]	OMA-WP-Charging_Deployment_Scenarios-20070904-A	Whitepaper on Deployment Scenarios for Charging

Table 1: Listing of Documents in Charging Enabler

6. OMNA Considerations

No OMNA items included in the release.

The OMA Charging Data Elements are defined in a specific data definition specification [CHRG_DDS].

7. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid ScrItem according to [SCR RULES].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Status:** Entry in this column **MUST** accurately reflect the architectural status of the **Item** in question.
- M means the **Item** is mandatory for the class
 - O means the **Item** is optional for the class
 - NA means the **Item** is not applicable for the class
- Requirement:** Expression in the column **MUST** be a valid TerminalExpression according to [IOPPROC] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

8. ERDEF for Charging Enabler - Client Requirements

This section is normative.

Item	Feature / Application	Requirement
OMA-ERDEF-Charging-C-001-O	Online Charging Client	[CHRG_ONLINE]*
OMA-ERDEF-Charging-C-002-O	Offline Charging Client	[CHRG_OFFLINE]*

Table 2: ERDEF for Charging V1.1 Client-side Requirements

* At least one of these is required for the Diameter based Charging Clients

9. ERDEF for Charging Enabler - Server Requirements

This section is normative.

Item	Feature / Application	Requirement
OMA-ERDEF-Charging-S-001-M	Online Charging Server Diameter Binding	[CHRG_ONLINE]
OMA-ERDEF-Charging-S-002-O	Offline Charging Server Diameter Binding	[CHRG_OFFLINE]
OMA-ERDEF-Charging-S-003-O	Online Charging Web Services / SOAP Binding	[CHRG_ONLINE]
OMA-ERDEF-Charging-S-004-O	Online Charging REST / HTTP Binding	[CHRG_ONLINE]
OMA-ERDEF-Charging-S-005-O	Offline Charging Web Services / SOAP Binding	[CHRG_OFFLINE]
OMA-ERDEF-Charging-S-006-O	Offline Charging REST / HTTP Binding	[CHRG_OFFLINE]

Table 3: ERDEF for Charging V1.1 Server-side Requirements

Appendix A. Change History

(Informative)

A.1 Approved Version History

Reference	Date	Description
OMA-ERELED-Charging-V1_0-20070904-A	04 Sep 2007	Status changed to Approved by TP: Ref #: OMA-TP-2007-0303-INP_Charging_V1_0_ERP_for_final_approval
