

Enabler Release Definition for Device Capability Management Object

Candidate Version 1.0 – 31 May 2011

Open Mobile Alliance
OMA-ERELD-DCMO-V1_0-20110531-C

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

1. Scope

The scope of this document is limited to the Enabler Release Definition of DCMO according to OMA Release process and the Enabler Release specification baseline listed in section 5.

2. References

2.1 Normative References

- [RFC2119] “Key words for use in RFCs to Indicate Requirement Levels”, S. Bradner, March 1997,

3. Terminology and Conventions

3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope”, "Release Version Overview" and “Conformance Requirements Notation Details”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 8 and 9 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [SCRRULES].

3.2 Definitions

Enabler Release	Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.
Minimum Functionality Description	Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.

3.3 Abbreviations

DCMO	Device Capability Management Object
ERDEF	Enabler Requirement Definition
ERELD	Enabler Release Definition
OMA	Open Mobile Alliance

4. Release Version Overview

Mobile devices are becoming more and more advanced with many features, such as Cameras, Bluetooth, USB, keyboard, peripheral and more. In many circumstances Enterprises, regulations and others have policies against the usage of some features but allow the use of other features available on mobile devices. Therefore there is a need for selectively enabling and disabling device capabilities.

The DCMO enabler targets to specify the mechanisms required for the remote management of device capabilities. In particular it will address the ability of remote enablement and disablement of device capabilities. The device capability information will be exposed by DCMO to facilitate management of the Device Capabilities. The DCMO enabler also specifies the mechanisms to convey the result of DCMO Operations or report the discovery of new device capability.

4.1 Version 1.0 Functionality

The DCMO Enabler V1.0 introduced following functionalities:

- Support a mechanism to enable the Device Capabilities
- Support a mechanism to disable the Device Capabilities
- Support a mechanism to specify whether the end-user is informed of DCMO operations performed in the Device.
- Support a mechanism to indicate whether the user is allowed to enable or disable specific Device Capabilities
- Support a mechanism to expose the Device Capabilities via management tree
- Support a mechanism to indicate whether a Device Capability is removable and whether it is currently attached
- Support a mechanism to report the result of DCMO Operations to DCMO Server

5. Document Listing for DCMO

This section is normative.

Doc Ref	Permanent Document Reference	Description
Requirement Document		
[DCMO_RD]	OMA-RD-DCMO-V1_0-20070529-C	Requirement Document for DCMO Enabler
Architecture Document		
[DCMO_AD]	OMA-AD-DCMO-V1_0-20081024-C	Architecture Document for DCMO Enabler
Technical Specifications		
[DCMO_TS]	OMA-TS-DCMO-V1_0-20110531-C	Technical Specification for DCMO Enabler
Supporting Files		
[DCMO_DDF]	OMA-SUP-MO_DCMO-V1_0-20101102-C	DDF parameters for the DCMO Enabler Working file in DDF directory: file: mo_dcmo-v1_0.ddf path: http://www.openmobilealliance.org/tech/ddf/

Table 1: Listing of Documents in DCMO Enabler

6. OMNA Considerations

The OMNA portal needs to add and maintain the following MO into its registry:

MO Identifier	Description	Owner	Version	MO DDF	MO Spec
urn:oma:mo:oma-dcmo:1.0	Device Capability MO	DM WG	1.0	OMA-SUP-MO_DCMO-V1_0-20101102-C	OMA-TS-DCMO-V1_0-20110531-C

The OMNA portal needs to add and maintain the following alert type into Alert Type registry:

Alert Root	Alert Code	Alert Type Description	Owner	Version	Spec	MO Identifier (Optional)
urn:oma:at:oma-dcmo:operation:1.0	OperationComplete	Used to claim that the alert message conveys the result of DCMO operation	DM WG	1.0	OMA-TS-DCMO-V1_0-20110531-C	urn:oma:mo:oma-dcmo:1.0

7. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid `ScrItem` according to [SCRRULES].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Requirement:** Expression in the column **MUST** be a valid `TerminalExpression` according to [SCRRULES] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

8. ERDEF for DCMO – Client Requirements

This section is normative.

Item	Feature / Application	Requirement
OMA-ERDEF-DCMO-C-001-<<M/O>>	DCMO Client	

Table 2: ERDEF for DCMO Client-side Requirements

9. ERDEF for DCMO – Server Requirements

This section is normative.

Item	Feature / Application	Requirement
OMA-ERDEF-DCMO-S-001-<<M/O>>	DCMO Server	

Table 3: ERDEF for DCMO Server-side Requirements

Appendix A. Change History

(Informative)
