

# **Enabler Release Definition for Download OTA**

Approved Version 2.0 – 29 Mar 2011

---

**Open Mobile Alliance**  
OMA-ERELD-DLOTA-V2\_0-20110329-A

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

## 3. Terminology and Conventions

### 3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope” and “Introduction”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 9 and 10 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [IOPPROC].

### 3.2 Definitions

<b>Enabler Release</b>	Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.
<b>Minimum Functionality Description</b>	Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.

### 3.3 Abbreviations

<b>AD</b>	Architecture Document
<b>DD</b>	Download Descriptor
<b>DLOTA</b>	Download Over the Air
<b>ERDEF</b>	Enabler Requirement Definition
<b>ERELD</b>	Enabler Release Definition
<b>OCSP</b>	Online Certificate Status Protocol
<b>OMA</b>	Open Mobile Alliance
<b>OTA</b>	Over the Air
<b>RD</b>	Requirement Document
<b>TS</b>	Technical Specification
<b>XML</b>	eXtensible Markup Language

## 4. Introduction

This document outlines the Enabler Release Definition for OMA Download OTA (DLOTA) version 2.0 and the respective conformance requirements for clients and servers implementing claiming compliance to it as defined by Open Mobile Alliance across the specification baseline.

OMA DLOTA version 1.0 provides a mechanism for user-initiated download of content, such as ring-tones, images, and applications. While OMA DLOTA provides much of the functionality needed to provide for a more reliable download solution than basic HTTP, other protocols exist in the mobile industries that provide functionality beyond that of OMA DLOTA version 1.0.

OMA DLOTA version 2.0 is an evolution of OMA DLOTA version 1.0. The purpose of OMA DLOTA version 2.0 is to add functionality that was missing from version 1.0. Backward compatibility can be achieved by also adding support for version 1.0 Download Descriptors to the Download User Agent.

This scope for the OMA DLOTA version 2.0 enabler release is to define the protocols, messages and mechanisms necessary to implement the OMA DLOTA in the mobile environment. It builds upon the OMA DLOTA version 1.0 enabler release, but extends it to address the specific requirements enumerated in the OMA DLOTA version Requirements document.

OMA DLOTA version 2.0 consists of a set of specifications developed by OMA to address the need for generic content download. For details of use cases and the requirements are specified in the OMA DLOTA version 2.0 requirements document [DLOTAv2-RD]. For a detailed discussion of the overall system architecture, please refer to [DLOTAv2-AD]. The [DLOTAv2-TS] specification defines the format and semantics of the download protocol, messages to enable generic content download.

## 5. Description of Differences from Previous Version

OMA Download OTA version 1.0 provides a mechanism for user-initiated download of content, such as ring-tones, images, and applications. While OMA Download OTA provides much of the functionality needed to provide for a more reliable download solution than basic HTTP, other protocols exist in the mobile industries that provide functionality beyond that of OMA Download OTA version 1.0.

Download OTA version 2.0 is an evolution of Download OTA version 1.0. The purpose of Download OTA version 2.0 is to add functionality that was missing from version 1.0. Backward compatibility can be achieved by also adding support for version 1.0 Download Descriptors to the Download User Agent.

## 6. Document Listing for DLOTA

This section is normative.

Doc Ref	Permanent Document Reference	Description
<b>Requirement Document</b>		
[DLOTA <sub>v2</sub> -RD]	OMA-RD-DLOTA-V2_0-20110329-A	Defines the requirements for the DLOTA version 2.0 specifications.
<b>Architecture Document</b>		
[DLOTA <sub>v2</sub> -AD]	OMA-AD-DLOTA-V2_0-20110329-A	Defines the overall architecture for DLOTA version 2.0 including informative descriptions of the technologies and their uses.
<b>Technical Specifications</b>		
[DLOTA <sub>v2</sub> -TS]	OMA-TS-DLOTA-V2_0-20110329-A	Defines the the format and semantics of the generic content download mechanism including Download Descriptor (DD).
<b>Supporting Files</b>		
[DLOTA <sub>v2</sub> -DD]	OMA-SUP-XSD_DD-V2_0-20110329-A	XSD Schema description for the elements of the download descriptor. Working file in schema directory: file: dd-v2_0.xsd path: <a href="http://www.openmobilealliance.org/tech/profiles/">http://www.openmobilealliance.org/tech/profiles/</a>
[DLOTA <sub>v2</sub> -DD_MIDPJAD]	OMA-SUP-XSD_dd_midpjad-V2_0-20110329-A	XML Schema for JAD MIDP Extension. Working file in schema directory: file: dd_midpjad-V2_0.xsd path: <a href="http://www.openmobilealliance.org/tech/profiles/">http://www.openmobilealliance.org/tech/profiles/</a>

**Table 1: Listing of Documents in DLOTA Enabler**

## 7. Minimum Functionality Description for DLOTA

This section is informative.

This section describes the functionality that is delivered with the OMA DLOTA version 2.0 specifications and their mandatory requirements.

The mandatory functionality of the OMA DLOTA version 2.0 clients defines the following use cases/functions as defined in [DLOTA<sub>v2</sub>-RD][DLOTA<sub>v2</sub>-AD].

- Basic Download
- Authentication of Trusted Entity and Content Integrity Check
- User Confirmation Prompt

The optional functionality of the OMA DLOTA version 2.0 clients defines the following use cases/functions as defined in [DLOTA<sub>v2</sub>-RD][DLOTA<sub>v2</sub>-AD].

- Combined Delivery
- Updating Media Objects
- Removing Media Objects
- Download of Compound Objects
- Download of Multiple Objects
- Download Timing Reservation
- Server Initiated Automatic Download
- Pre-Downloading Media Objects
- Download of Chunked Objects
- Support for Resumable Session (Pause and Resume Functionality)
- Progressive Download of Media Object
- Download from Multiple Servers

The mandatory functionality of the OMA DLOTA version 2.0 servers defines the following use cases/functions as defined in [DLOTA<sub>v2</sub>-RD][DLOTA<sub>v2</sub>-AD].

- Basic Download
- Authentication of Trusted Entity and Content Integrity Check
- Download of Compound Objects
- Download of Multiple Objects

The optional functionality of the OMA DLOTA version 2.0 servers defines the following use cases/functions as defined in [DLOTA<sub>v2</sub>-RD][DLOTA<sub>v2</sub>-AD].

- Combined Delivery
- Download Timing Reservation

- Download of Chunked Objects
- Updating Media Objects
- Removing Media Objects
- Server Initiated Automatic Download
- Pre-Downloading Media Objects
- Support for Resumable Session (Pause and Resume Functionality)

## 8. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid `ScrItem` according to [IOPPROC].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Status:** Entry in this column **MUST** accurately reflect the architectural status of the **Item** in question.
- M means the **Item** is mandatory for the class
  - O means the **Item** is optional for the class
  - NA means the **Item** is not applicable for the class
- Requirement:** Expression in the column **MUST** be a valid `TerminalExpression` according to [IOPPROC] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

## 9. ERDEF for DLOTA - Client Requirements

This section is normative.

Item	Feature / Application	Status	Requirement
OMA-ERDEF-DLOTA-C-001	DLOTA 2.0 Client	M	DLOTA <sub>v2</sub> -TS:MCF

**Table 2: ERDEF for DLOTA Client-side Requirements**

## 10.ERDEF for DLOTA - Server Requirements

This section is normative.

Item	Feature / Application	Status	Requirement
OMA-ERDEF-DLOTA-S-001	DLOTA 2.0 Server	M	DLOTAv2-TS:MSF

**Table 3: ERDEF for DLOTA Server-side Requirements**

## Appendix A. Change History

(Informative)

### A.1 Approved Version History

Reference	Date	Description
OMA-ERELED-DLOTA-V2_0-20110329-A	29 Mar 2011	Status changed to Approved by TP: OMA-TP-2011-0100-INP_Download_OTA_V2_0_ERP_for_Final_Approval
