Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

1. Scope

The scope of this document is limited to the Enabler Release Definition of LAWMO according to OMA Release process and the Enabler Release specification baseline listed in section 5.

3. Terminology and Conventions

3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope”, “Release Version Overview” and “Conformance Requirements Notation Details”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 8 and 9 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [SCRRULES].

3.2 Definitions

Enabler Release	Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.
Minimum Functionality Description	Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.
Device	see [OMADICT]
Factory Reset	The act to reset the device to its initial factory state.
Fully Lock Device	To render the device fully inoperable from unauthorised usage except for functions mandated by law (e.g. emergency calls) and participating LAWMO sessions as well as other data sessions that aid in the recovery of the device.
LAWMO Operations	Lock Device, Unlock Device, Wipe Device’s Data and Factory Reset operations which may be invoked on a Lock and Wipe MO.
Lock Device	To render the device fully or partially inoperable from unauthorised usage according to which lock level is chosen. Two lock levels are defined: Partially Lock Device and Fully Lock Device.
Partially Lock Device	To render the device inoperable from unauthorised usage except for receiving incoming calls, functions mandated by law (e.g. emergency calls), and participating in LAWMO sessions as well as other data sessions that aid in the recovery of the device.
Unlock Device	To re-enable all Device functionalities previously locked by Lock Device operation.
Wipe Device’s Data	The act to permanently erase personal and/or enterprise-related data from the device.

3.3 Abbreviations

DM	Device Management
ERDEF	Enabler Requirement Definition
ERELD	Enabler Release Definition
LAWMO	Lock and Wipe Management Object
OMA	Open Mobile Alliance

4. Release Version Overview

The mobile device is becoming a pocketable private information database which contains various user data and enterprise-related data. There are several scenarios user may need to remotely lock and/or wipe the device as follows:

- If the device was lost or stolen, there is a risk of data being compromised either maliciously or by accident. User may request to lock the device and wipe all the data from the device. If the device is returned, the user can also request to unlock the device.
- If the device was hand over or sold to other users, the owner may request to clean all user and enterprise-related data in the device or reset it to factory state.

There are more use cases and scenarios that may require LAWMO Operations, such as Lock/Unlock Device, Wipe Device's Data and Factory Reset.

This specification collects the use cases and corresponding requirements to develop a standardized approach to fulfil the above market needs.

4.1 Version 1.0 Functionality

The LAWMO Enabler V1.0 introduced following functionalities:

- Support a mechanism to Fully Lock the Device
- Support a mechanism to Partially Lock the Device
- Support a mechanism to Unlock the Device
- Support a mechanism to Wipe data from the Device
- Support a mechanism to Factory Reset the Device
- Support a mechanism to specify whether the user is to be informed of LAWMO operations performed in the Device
- Support a mechanism to notify the result of LAWMO Operations except Factory Reset to DM Server.

5. Document Listing for LAWMO

This section is normative.

Doc Ref	Permanent Document Reference	Description
Requirement Document		
[LAWMO_RD]	OMA-RD-LAWMO-V1_0-20120424-A	Requirement Document for LAWMO Enabler
Architecture Document		
[LAWMO_AD]	OMA-AD-LAWMO-V1_0-20120424-A	Architecture Document for LAWMO Enabler
Technical Specifications		
[LAWMO_TS]	OMA-TS-LAWMO-V1_0-20120424-A	Technical Specification for LAWMO Enabler
Supporting Files		
[LAWMO_DDF]	OMA-SUP-MO_LAWMO-V1_0-20120424-A	DDF parameters for the LAWMO Enabler Working file in DDF directory: file: mo_lawmo-v1_0.ddf path: http://www.openmobilealliance.org/tech/ddf/

Table 1: Listing of Documents in LAWMO Enabler

6. OMNA Considerations

The OMNA portal needs to add and maintain the following MO into MO registry:

MO Identifier	Description	Owner	Version	MO DDF	MO Spec
urn:oma:mo:oma-lawmo:1.0	Lock and Wipe MO	DM WG	1.0	OMA-SUP-MO_LAWMO-V1_0-20120424-A	OMA-TS-LAWMO-V1_0-20120424-A

The OMNA portal needs to add and maintain the following alert type into Alert Type registry:

Alert Root	Alert Code	Alert Type Description	Owner	Version	Spec	MO Identifier (Optional)
urn:oma:at:lawmo:1.0	OperationComplete	Used to claim that the alert message conveys the result of LAWMO operation	DM WG	1.0	OMA-TS-LAWMO-V1_0-20120424-A	urn:oma:mo:oma-lawmo:1.0

7. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid ScrItem according to [SCRRULES].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Requirement:** Expression in the column **MUST** be a valid TerminalExpression according to [SCRRULES] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

8. ERDEF for LAWMO – Client Requirements

This section is normative.

Item	Feature / Application	Requirement
OMA-ERDEF-LAWMO-C-001-<<M/O>>	LAWMO Client	

Table 2: ERDEF for LAWMO Client-side Requirements

9. ERDEF for LAWMO – Server Requirements

This section is normative.

Item	Feature / Application	Requirement
OMA-ERDEF-LAWMO-S-001-<<M/O>>	LAWMO Server	

Table 3: ERDEF for LAWMO Server-side Requirements

Appendix A. Change History

(Informative)

A.1 Approved Version History
