

Reference Release Definition for Multimodal and Multi-device

Candidate Version 1.0 – 17 Jun 2008

Open Mobile Alliance
OMA-RRELD-MMMD-V1_0-20080617-C

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

1. Scope

The scope of this document is limited to the Reference Release Definition of Multimodal and Multi-device according to OMA Release process and the Reference Release document baseline listed in section 5.

2. References

2.1 Normative References

- [MMMD_AD] “OMA Multimodal and Multi-device Enabler Architecture”, , Open Mobile Alliance™, OMA-AD-MMMD-V1_0, [URL:http://www.openmobilealliance.org/](http://www.openmobilealliance.org/)

3. Terminology and Conventions

3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope” and "Release Version Overview" are normative, unless they are explicitly indicated to be informative.

3.2 Definitions

Reference Release A set of specifications and/or white papers which form a formal deliverable of OMA. The release can be referenced or otherwise used to support implementable enabler releases, but it cannot by itself be implemented in products.

Reference Release Definition A definition of the documents that are included in a Reference Release.

3.3 Abbreviations

MMMD Multimodal Multi-device

OMA Open Mobile Alliance

RRELD Reference Release Definition

4. Release Version Overview

The Multimodal multi-device enabler provides an architecture for the management and synchronization of mixed modalities of interaction on mobile devices. It describes the different logical components required to support multimodal and multi-device interaction and the different deployment configurations that can be supported. The enabler does not assume particular authoring model for multimodal or multi-device interactions. The architecture supports the use of relevant standards from the W3C, IETF and others and identifies where OMA developed specifications are needed to create the desired open and heterogeneous computing environment. While the architecture is not limited to any set of modalities or associated languages, some examples of key modalities include speech, handwriting and haptic as well as visual input and output.

This work was done in tight cooperation with the Multi-modal Working Group of W3C. When the decision was taken in W3C to discontinue the development of technical support language, it left this work without a forward path. This reference release is the recognition of the fact that the architecture defined herein is applicable to any multi-modal work taken up in the future, whether by OMA or another organization.

4.1 Version 1.0 Functionality

Version 1 of the MMMD enabler describes the functional components required in a multi-modal environment, and the relationship of these components to other OMA enablers (e.g. browsing).

The components defined are the Interaction and Synchronization Manager and a registry for managing interaction states and preferences.,

Four interfaces (3 are I0, and one is an I2) are defined to interface between the MMMD components, other OMA enablers, and external functions. These are the “Multimodal and Multi-device Configuration Protocol”, the “Multimodal Synchronization Protocol”, and the “Multimodal Control Protocol”. Interface between the user agent and processing engines such as a “text-to-speech”, engine or a “voice-recognition” engine are considered I0 and not described. (Note: these interfaces are of key interest to W3C.)

Much of the functionality described by MMMD could reside either on a client device, or on a server. The interfaces are designed to allow various partitioning of the functionality amongst local and remote components, without having to redefine the interfaces.

Version 1 also defines the expected set of functional flows required to discover components (either local or remote) and to initialize and initiate multi-modal service.

5. Document Listing for Multimodal and Multi-device

This section is normative.

Doc Ref	Permanent Document Reference	Description
Requirement Document		
[MMMD_RD]	OMA-RD-Multimodal_Multi-device_Services-V1_1-20031113-C	Requirement Document for Multimodal and Multi-device Reference Package
Architecture Document		
[MMMD_AD]	OMA-AD-MMMD-V1_0-20080617-C	Architecture Document for Multimodal and Multi-device Reference Package

Table 1: Listing of Documents in MMMD Reference Release

Appendix A. Change History (Informative)

A.1 Approved Version History

Reference	Date	Description
n/a	n/a	No prior version –or- No previous version within OMA

A.2 Draft/Candidate Version 1.0 History

Document Identifier	Date	Sections	Description
Draft Version OMA-RRELD-MMMD-V1_0	12 Jul 2007	All	Baseline document
	08 Apr 2008	All	Editorial fixes: 2008 template Added References and Abbreviations, completed Section 4
Candidate Version: OMA-RRELD-MMMD-V1_0	17 Jun 2008	All	Status changed to Candidate by TP OMA-TP-2008-0199- INP_MMMD_V1_0_RRP_for_Candidate_Approval
