

Enabler Release Definition for
Next Generation Service Interfaces
Approved Version 1.0 – 29 May 2012

Open Mobile Alliance
OMA-ERELD-NGSI-V1_0-20120529-A

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

1. Scope

The scope of this document is limited to the Enabler Release Definition of NGSI according to OMA Release process and the Enabler Release specification baseline listed in section 5.

2. References

2.1 Normative References

- [NGSI AD] “Next Generation Service Interfaces Requirements Architecture”, Open Mobile Alliance™, OMA-AD-NGSI-V1_0, URL:<http://www.openmobilealliance.org/>
- [NGSI RD] “Next Generation Service Interfaces Requirements”, Open Mobile Alliance™, OMA-RD-NGSI-V1_0, URL:<http://www.openmobilealliance.org/>

3. Terminology and Conventions

3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope”, “Release Version Overview” and “Conformance Requirements Notation Details”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 8 and 9 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [SCRRULES].

3.2 Definitions

Enabler Release Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.

Minimum Functionality Description Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.

3.3 Abbreviations

ERDEF	Enabler Requirement Definition
ERELD	Enabler Release Definition
NGSI	Next Generation Service Interfaces
OMA	Open Mobile Alliance
OMNA	Open Mobile Naming Authority

4. Release Version Overview

The aim of OMA NGSI v1.0 is to create a collection of abstract definitions for service interfaces, defined as either extensions to Parlay X APIs or as new interfaces, with the focus set to personal communication service extensions including access to external media/data storage or social services. The focus of the NGSI v1.0 is the standardization of new functional APIs essential to the extensions of personalized communication services from the 3rd Party Service Access point of view. In order to allow for advanced service creation based on multiple services/enablers, interface functionalities for identity federation and related obligations as well as management for the composition of services allowing for dynamic service mash-up are included. The focus is not limited to mobile networks only.

4.1 Version 1.0 Functionality

The NGSI Version 1.0 introduces the following functionalities:

- Data Configuration and Management
- Call Control and Configuration
- Multimedia List Handling Extensions
- Context Management
- Registration and Discovery
- Identity Control functionalities

5. Document Listing for NGSI

This section is normative.

Doc Ref	Permanent Document Reference	Description
Requirement Document		
[NGSI_RD]	OMA-RD-NGSI-V1_0-20120529-A	Requirement Document for NGSI Enabler
Architecture Document		
[NGSI_AD]	OMA-AD-NGSI-V1_0-20120529-A	Architecture Document for NGSI Enabler
Technical Specifications		
[NGSI-COM]	OMA-TS-NGSI_Common-V1_0-20120529-A	Technical Specification for extensions to common data structure. This is an extension to Parlay X Common specification [3GPP TS 29.199-1].
[NGSI_CCC]	OMA-TS-NGSI_Call_Control_and_Configuration-V1_0-20120529-A	Technical Specification for extensions to Call control and configuration functionalities. This is an extension to Call Control as defined in [3GPP TS 29.199-2], Call Notifications as defined in [3GPP TS 29.199-3], Call Handling as defined in [3GPP TS 29.199-10] and Multimedia Conferencing as defined in [3GPP TS 29.199-12].
[NGSI_CTX]	OMA-TS-NGSI_Context_Management-V1_0-20120529-A	Technical Specification for definition of context management interface.
[NGSI_DCM]	OMA-TS-NGSI_Data_Configuration_and_Management-V1_0-20120529-A	Technical Specification for definition of data management interface.
[NGSI_IDM]	OMA-TS-NGSI_Identity_Control-V1_0-20120529-A	Technical Specification for definition of identity control interface.
[NGSI_MLH]	OMA-TS-NGSI_Multimedia_List_Handling_Extension-V1_0-20120529-A	Technical Specification for extensions to Multimedia List Handling functionalities. This is an extension to Parlay X specification on Multimedia Streaming as described in [3GPP 29.199-19]
[NGSI_REG]	OMA-TS-NGSI_Registration_and_Discovery-V1_0-20120529-A	Technical Specification for definition of service registration and discovery

Table 1: Listing of Documents in NGSI Enabler

6. OMNA Considerations

7. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid `ScrItem` according to [SCRRULES].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Requirement:** Expression in the column **MUST** be a valid `TerminalExpression` according to [SCRRULES] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

8. ERDEF for NGSI - Client Requirements

NGSI interfaces are defined as abstract interfaces. There are no client requirements defined.

9. ERDEF for NGSI - Server Requirements

NGSI interfaces are defined as abstract interfaces. There are no server requirements defined.
