

Reference Release Definition for Open Service Provider Environment (OSPE)

Approved Version 1.0 – 22 Oct 2009

Open Mobile Alliance
OMA-RRELD-OSPE-V1_0-20091022-A

Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

© 2009 Open Mobile Alliance Ltd. All Rights Reserved.

Used with the permission of the Open Mobile Alliance Ltd. under the terms set forth above.

1. Scope

The scope of this document is limited to the Reference Release Definition of Open Service Provider Environment (OSPE) according to OMA Release process and the Reference Release document baseline listed in section 5.

2. References

2.1 Normative References

3. Terminology and Conventions

3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope” and "Release Version Overview" are normative, unless they are explicitly indicated to be informative.

3.2 Definitions

Catalogue	A logical collection of information associated with Service Packages, Service Models, Service Deployment Instances, and Service Instances.
Component	A replaceable/reusable unit that is responsible for a particular set of functionality and associated information. A component forms part or all of an enabler. [Error! Reference source not found.]
Life Cycle Management	The sequence of steps of deployment (including download, installation, configuration, activation, and publishing), update (including download, installation, and activation), and removal/withdrawal of services and components.
Reference Release	A set of specifications and/or white papers which form a formal deliverable of OMA. The release can be referenced or otherwise used to support implementable enabler releases, but it cannot by itself be implemented in products.
Reference Release Definition	A definition of the documents that are included in a Reference Release.
Resource	A resource is any 1 element, component, enabler, function or application that can send, receive, or process requests. A Resource is an abstract concept that represents a capability, e.g. a network element, in a Service Provider’s domain.
Service Level Tracing	Service Level Tracing is the ability to capture and log all relevant information at each Component participating in the execution of a specific service, that is initiated either by an end user or a Component.
Service Model	A structured representation of services, Resources, and their interrelations, Inherent Attributes and Service Attributes for a given service.
Tracing	The mechanism to support capturing and recording of runtime information. This is achieved by specifying standard Component interfaces to handle aspects such as start tracing, stop tracing, and tracing result retrieval.

3.3 Abbreviations

LCM	Life Cycle Management
OMA	Open Mobile Alliance
OMNA	Open Mobile Naming Authority
OSPE	OMA Service Provider Environment
RRELD	Reference Release Definition
SLT	Service Level Tracing
SMAC	Service Model And Catalogue

4. Release Version Overview

The Open Service Provider Environment (OSPE) Reference Release provides requirements and architectural principles for deploying services and components, consistent identification of entities collaborating to offer the service, and assistance in localizing faults associated with services that are offered by a Service Provider.

The OSPE Reference Release addresses three specific areas:

- Life Cycle Management (LCM) of components and services
- Service Level Tracing (SLT)
- Management of component representations, as well as their relations and versions.

OSPE was originally planned as an Enabler which would have included Technical Specifications of interfaces and protocols. However, work on these Technical Specifications was suspended in 2009 to avoid potential inconsistencies with related ongoing work in other standards organizations. It was decided to conserve the OSPE RD [OSPE-RD] and AD [OSPE-AD] as a Reference Release for future reference in OMA. The possibility of resuming Technical Specification work at some point in the future, and turning OSPE into an Enabler, is not discarded.

4.1 Version 1.0 Functionality

The Open Service Provider Environment V1.0 Reference Release contains the following functionality:

- Descriptions of the OSPE Server and Service Model and Catalogue (SMAC) components of the OSPE Architecture.
- Description of the OSPE-1, OSPE-2, OSPE-3, OSPE-4, OSPE-5, OSPE-6 interfaces.
- Flows for Life Cycle Management, including: deployment, modification and withdrawal of components and services.
- Flows for Service Level Tracing, including: turning on tracing, starting tracing from terminal and component.

The OSPE V1.0 Reference Release also contains an informative service meta-model and shows how it can be applied to an OMA Enabler.

5. Document Listing for OSPE

This section is normative.

Doc Ref	Permanent Document Reference	Description
Requirement Document		
[OSPE-RD]	OMA-RD-OSPE-V1_0-20091022-A	Requirement Document for OSPE Reference Package
Architecture Document		
[OSPE-AD]	OMA-AD-OSPE-V1_0-20091022-A	Architecture Document for OSPE Reference Package

Table 1: Listing of Documents in OSPE Reference Release

6. OMNA Considerations

There are no OMNA considerations for the OSPE V1.0 Reference Release.

Appendix A. Change History

(Informative)

A.1 Approved Version 1.0 History

Reference	Date	Description
OMA-RRELD-OSPE-V1_0	22 Oct 2009	Status changed to Approved by TP: OMA-TP-2009-0453-INP_OSPE_V1_0_RRP_for_Final_Approval
