4. Introduction

This document outlines the materials that constitute the Reference Release Definition for the UAProf Best Practices Guide. This reference release serves to keep the collection of materials associated for ease of use and acquisition.

The User Agent Profile [UAPROF] is an XML document that describes the software and hardware capabilities of a mobile device, as well as information about the network to which the device is connected. For details on the UAProf technology see [UAPROF]

This reference release contains a white paper [UAPROFWP] which serves as a guide for those developing User Agent Profiles (UAProfs) for devices, helping to point to common errors and pointing out tools that can be used in the validation and management of UAProfs.
